

MERLIN SUITS

Measuring instructions

READ FIRST

All orders start with proper measuring, it is very important that orders be measured correctly. Please ensure that the person or persons performing the measuring follow these step-by-step instructions very carefully. When we receive your order, should we have any questions about the measurements, it may be necessary to recheck your customers' measurements. We process a large number of orders each week, we do occasionally find some measurements that are, to us, questionable. If you would like to have a method of measuring explained to you in more detail, please don't hesitate to call us. Not every jumpsuit manufacturer methods are the same; it is imperative to follow the proper technique for the suit you are ordering. Also, if the suit is to be worn over winter clothing, please measure with the intended clothing on the customer. We cannot guarantee the fit will be correct if we have to guess as to how much and what kind of winter clothing the customer is going to wear.

1. Wrist -The easy one.

2. Forearm - Around forearm at widest point.

3. Bicep - Around bicep, semi flexed, at widest point.

MERLIN SUITS

Measuring instructions

4. Chest - Around chest at widest point, usually at the nipple. DO NOT inflate chest.

5. Waist - Around waist at widest point, usually at the belly button. DO NOT suck in waist. (IF weights are to be worn often, measure with weights on.)

MERLIN SUITS

Measuring instructions

6. Hips - Measure hips by looking at the hips from the side. Measure where the bum sticks out the farthest.

7. Thigh - Measure around the widest point of the upper thigh.

MERLIN SUITS

Measuring instructions

8. Above knee, knee lifted - With the knee lifted, measure around the lowest part of the thigh above the knee. (DO NOT measure tight. Also, this is where the seam about the knee is intended.)

9. Crotch to floor - Measure from the crotch to the floor. Run the tape down the inside if the leg to the floor next to the heel. DO NOT go right to the floor with their legs apart as you may lose up to an inch or two. If you have the customer fold the tape like a cigarette placed at the very center of the crotch, it lessens the

Measuring instructions

9. Crotch to floor (continued)

10. Crotch to above knee -
With the tape still in the place,
measure to above the knee.
Again, this is the intended
location of the seam. Refer to
#8 measurement.

Measuring instructions

13. Hole in the throat to crotch (continued)

14. Hole in throat to waist -
From the hole in the throat,
measure to the waistline.
Measurement #5.

MERLIN SUITS

Measuring instructions

15. Wrist to elbow

With the arm bent, measure from the bone at the wrist to just past the bone at the elbow.

16. Elbow to shoulder

From the same point behind the elbow, measure to the bone at the tip of the shoulder. (This is where the shoulder seam of your shirt should fall)

MERLIN SUITS

Measuring instructions

- 17. **Around the shoulder** - Measure around the armpit area. DO NOT measure tight.

- 18. **Shoulder tip to shoulder tip** - Measure from the bone at the tip of the shoulder across the base of the neck to the other shoulder tip. (Do not go straight across the back – follow the contour of the shoulders)

MERLIN SUITS

Measuring instructions

19. Hole in the throat to back of neck – Torso -

Have the customer hold the tape in the hole of their throat and measure down between their legs (crotch) and up the back to the base of the neck. It is VERY IMPORTANT that you push the tape INTO THE SMALL OF THE BACK. You can loose up to 2" if the measurement is not done properly.
